### Unique Student Identifier

A Unique Student Identifier (USI) is a reference number made up of numbers and letters that gives students access to their USI account. A USI will allow an individual's USI account to be linked to the National Vocational Education and Training (VET) Data Collection allowing an individual to see all of their training results from all providers including all completed training units and qualifications. The USI will make it easier for students to find and collate their VET achievements into a single authenticated transcript. It will also ensure that students' VET records are not lost. The USI will be available online and at no cost to the student. This USI will stay with the student for life and be recorded with any nationally recognised VET course that is completed from when the USI comes into effect on 1 January 2015.

### The USI initiative will:

**Created:** January 2020  
**Modified:**  
**Review Date:** January 2021

**Document Owner:** ACTT  
**Version:** 1.0  
**Page 5 of 8**

## Enrolment Policy

---

- Seamlessly link information about a student's VET achievements, regardless of where they studied
- Enable students to easily access secure digital transcripts of their achievements
- Give students access to, and more control over, their educational information

### Step 1 - Collect the USI

The process to collect a USI from a student who has created their own USI is as follows:

Ask the student for their:

- USI number
- First name
- Last name
- Date of birth

**Important:** The details provided by the student **MUST** match the details shown on the form of ID used to create a USI

### Step 2 - Verify the USI

Verify that this information is correct. This part is very important as the student may have made a mistake when they gave the USI to you or simply has the wrong USI number. You should also make sure the student is giving you the exact information they used when they created their USI. This may be different to previous details you have recorded.

To verify the information either:

- Enter this information into the USI website

**Or**

- Enter this information into your USI integrated software.

**Note:** both methods of verifying USIs indicated above can achieve the same result.

Take a screen shot that this process has been completed and attach it to the USI Application form

### Step 3 - Report the USI

Once you have verified the USI as valid, you will then use this USI when reporting to the National Data Collection.

**Note:** If the student's USI could not be verified, you will receive a 'USI invalid' and the first name, last name and date of birth will be a 'no match'. If the USI is valid the system checks the first name, last name and date of birth and presents with 'match' or 'no match'.

You will then need to check with the student that the information they provided is correct and an exact match to the details they used from their form of ID when creating their USI

### Creating a USI for a student

Most students will be able to create a USI for themselves, however ACTT can assist students to create a USI

#### Steps to create a USI for a student

The following steps show you how to create a USI on behalf of a student:

#### Step 1

## Enrolment Policy

---

Ask the student for one valid form of ID from the list below:

- Driver's Licence
- Medicare Card
- Australian Passport
- Visa (with Non-Australian Passport) for international students
- Birth Certificate (Australian) \*please note a Birth Certificate extract is not sufficient
- Certificate Of Registration By Descent
- Citizenship Certificate
- ImmiCard

**Important: The student's details you enter when you create their USI must match exactly with the details displayed on the student's chosen form of ID.**

### Step 2

Click on 'Create USI' and agree to the terms and conditions.

### Step 3

Click on 'Create USI'.

### Step 4

Fill in the personal and contact details of the student.

### Step 5

The student will be required to nominate their preferred contact method for receiving information from the USI Office, including their USI activation notice, when it is created by you. The student can choose between either email, phone or by mailing address. You will enter this information when setting up the student's USI.

### Step 6

You will now be asked to enter the details from the students chosen form of ID from the list above.

**Important: The details the student gives you MUST match the details shown on their form of ID**

### Step 7

The student's USI will now be displayed on the screen.

### Step 8

The student will also receive their USI sent to them by either email, phone or by mailing address, whichever the student has chosen as their preferred contact method.

### Step 9

# Enrolment Policy

If you like, or the student asks, you can advise the student that their USI has been created and that:

- The student should write down their USI somewhere safe or enter it into their phone for safe keeping.
- They should activate their USI account at some stage in the near future.
- If they do not activate their account, their USI still works.
- When they do activate their account, they will be required to add some security questions and choose a password.
- In accordance with section 11 of the Student Identifiers Act 2014, ACTT will securely destroy personal information which it collects from individuals solely for the purpose of applying for a USI on their behalf as soon as practicable after we have made the application or the information is no longer needed for that purpose, unless we are required by or under any law to retain it.

## Duplicate USIs

When creating a USI the system will check existing accounts and advise if there is a USI account already established. If a training provider organisation and/or student become aware of the possibility of a student having two USIs, they should report the issue to the Student Identifiers Registrar. The Student Identifiers Registrar will work with the relevant parties to resolve the issue and advise the outcome.
